## ZENALUBE CHAIN & CABLE

### DESCRIPTION

Moly containing lubricant that protects parts which are exposed to harmful or corrosive elements. Lubricates and penetrates to protect against friction and wear.

### FEATURES AND BENEFITS

Thick foam that clings to vertical surfaces. As foam breaks, product penetrates into wire ropes, links, and roller mechanisms. Provides resistance to wear. Extreme pressure capability. Will not break down under high temperatures. Forms a protective rust barrier.

### APPLICATIONS AND USES

Recommended for use in severe climatic conditions. For use on gears, chains, cables, sprockets, power drive hoists, motorcycles, bicycles, chain saws, wire ropes, link and roller assemblies, material handling equipment, road and construction machinery.

### DIRECTIONS FOR USE

Shake well before using. Spray 8 to 10 inches from surface. Allow to penetrate. Second coat gives additional protection.

SIZE / AVAILABILITY 20 oz. Aerosol Net Weight 16 oz. 12 per case
